Service Request Information

| | |
|--|---|
| What kind of sign is it? | Construction warning signs for Thomas Circle |
| For existing signs, is it faded, damaged or missing? | 2 large signs have fallen over |
| Describe request or problem in as much detail as possible (maximum 1000 characters). | The construction warning signs at the corner of 11th and M St NW have fallen over and the sandbags that held them in place are empty. The signs have been on the ground for several months and are a real eyesore and are becoming a trash collection point. Unfortunately, a good number of visitors to the city walk by the site as the signs are between the hotels at Thomas Circle and metro at the convention center. Please have the signs placed back into their proper position and the sand on the ground cleaned up. Thank you so much, Mike |

Location Information

Request number 972658 submitted on July 10, 2005. One of the two signs was erected, but the other, probably because the support is broken, was never fixed and erected.
