

Rear of 1224 11th St. NW

Picture taken on Dec 14, 2006

This property is currently operating as a rooming house. It was reported to DCRA and found to be operating illegally, with no business license, smoke detectors, plus other code violations. These have since been abated by the owner.

Trash piled up with no trashcan to mitigate rodent access. This is a frequent occurrence. Residents of this building are frequently seen leaning over the gate and placing their trash bags on the ground. Neighbors along the alley have complained about the rat problem in the alley.
