subject Trash at 1224 11th St. NW

Hello DCRA and greetings.

We have previously corresponded regarding the rooming house at 1224 11th St. NW, and your inspections found that the owner of the property was operating an illegal rooming house. We greatly appreciate your inspections, follow-up and the abatement that occurred with this property owner.

We have one concern that has been brought to the ANC2F Committee on Crime and Public Safety (CCPS) and that is the handling of trash by residents of the building. Neighbors report that they frequently see residents placing trash in the alley in trash bags rather than in trash cans. We are concerned about the trash management plan at this property.

Attached you will find two pictures of the trash piled up behind this property. Note, if the pictures do not make it to you because of the file size they will be available on our web page within the next week.

We respectfully request that you take the necessary action to ensure that this rooming house, which we suspect houses about 8 people, has the necessary trash management plan in place and properly executes that plan.

Copied on this e-mail are the affected ANC Commissioner and the Ward 2 Services Coordinator.

Thanks again for your continued service to the community,

Mike Sheaffer
co-chair
