Commissioner Warth announced that he will not seek reelection for 2F02 commissioner; however, Josh Hubner and Emily Barton have filed to run.

Commissioner Benardo announced that he will seek reelection for as ANC 2F-06 commissioner. He also announced that “CityMarket at O” construction is to commence in September 2010 with the preservation and securing of the historic market structure. This will be succeeded by the closing of the Giant Food store in January 2011 and razing of the store and excavation beginning in February 2011. Giant will provide free home delivery service to the area until the store is in operation. The Giant will reopen 24 months after closing, with hotel and housing opening a year later. The project will be a 1 million-square foot urban infill with over 87,000 square feet of retail, 600+ residential units, and over 500 parking spaces. CityMarket at O is expected to revitalize the Shaw community.

He further announced that the second public public meeting on branding and marketing the arts district (NIF grant) will take place on September 7th from 6:00-8:00 PM at Warehouse Theater (645 New York Avenue NW). This second public dialogue will expand the dialogue about branding and marketing Logan Circle area Arts Overlay District. This meeting is co-hosted by Paul Ruppert, Producing Director, Warehouse Theater, and Alex Padro, Executive Director of the Shaw Main Streets.

Benardo also announced that DDOT will be holding a community planning meeting regarding the 14th Street NW from Thomas Circle to Florida streetscape project. Currently this project is not in the budget; however, ANC 2F is pressing to have it included.

Commissioner Raymond announced that he will not seek reelection for SMD 2F-04 commissioner.

Commissioner Cole announced that he will not seek reelection for SMD 2F-05 commissioner.

Chairman Reed announced that there doesn't seem to be a commissioner candidate for SMD05 and the ANC works best if all SMDs are represented.

He also stated that the Hotel Helix Voluntary Agreement was accepted by the ABC Board. He pointed out that the ABC Board has become very community unfriendly and is changing its policies without notifying the community.

He further announced that there has been a big upsurge with rodent problems in the city; residents on Kingman Street are especially having a rodent problem. The rodent control office is over worked and has limited authority. It is important that residents and businesses do their part by keeping trash in the appropriate containers to keep the rodent problem at bay.

Chris Ziemann announced that The 2005 District of Columbia Bicycle Master Plan called for the proportion of bicycle trips to increase from about 1% of all trips in 2000 to at least 3% in 2010 and 5% of all trips in the District of Columbia by 2015. Current bicycle mode share

is 2.3% (work trips). Reaching the 2010 and 2015 goals will be possible if the District continues developing a safe bicycle network. DDOT is installing Downtown Bike Lanes similar to the new lanes along Pennsylvania Avenue and Cycle Tracks along 15th Street. Additionally, **Ziemann** talked about the importance of Cycle Tracks in the District. Research has shown that Cycle Tracks can increase ridership by 18% to 20%, compared to 5% to 7% for traditional bike lanes. They can provide greater clarity about expected behavior on the part of both cyclists and motorists.

Ziemann stated that Friday, September 3rd will be his last day of employment with DDOT. ANC2F thanks Ziemann for his commitment to the Logan Circle area traffic issues and wished him the best of luck in his new position.

Charles Biggio continues to review the current District of Columbia laws surrounding condominium owner's rights. If you would like to help Biggio review the current laws and draft a suggested resolution to be sent on to City Council he can be contacted at 1440 N Street, NW #711.

Above that will office space. Plans include keeping the ground floor restaurant and third floor gallery in the existing building. The first below-grade level will be storage. Two additional below-grade levels will be parking which will be accessed by a car elevator.
